

2012–2013

GRADE 5 AT A GLANCE

What can I learn from others who see things differently? In Grade 5, students take eight required subjects: Art, English Language Arts, Health and Life Skills, Mathematics, Music, Physical Education, Science and Social Studies. Some schools may offer additional optional subjects.

ART

ENGLISH
LANGUAGE ARTS

HEALTH AND
LIFE SKILLS

2+2

MATHEMATICS

MUSIC

What is "good" design? In Grade 5 Art, your child will examine the individual character of objects and forms and begin to judge whether designed objects meet certain standards. They will play with shapes, changing them using abstraction and distortion, and work on using a minimum of material and effort in their art.

I can set my own goals of how my language skills will improve! I can choose pictures, print and other ways to share my experiences. Your Grade 5 child will use many methods, such as computer programs, to create, organize and publish information. They will take responsibility for their role in a group and show appreciation for what others share.

I'm getting better at listening to others! Grade 5 students understand that it is important to appreciate others around them. They also discover ways to deal with their stress, manage their time and stay physically healthy.

How likely is it that something will happen? Your child will investigate the likelihood of events occurring through the study of probability. They'll use mental mathematics, estimations and personal strategies to solve problems involving whole numbers and decimals. They'll also describe shapes and objects, considering measurement and movement. Building on their earlier studies, your child will explore ways to solve problems involving numbers, patterns, measurement and data analysis, and they'll connect numbers and shapes to their everyday life.

Sing, sing a song, make it simple, to last your whole life long! Grade 5 students understand that rhythm, melody and chords are related. Your child will create rhythms and match the names, sounds and pictures of instruments. When they sing, they'll work on singing with a good tone and with expression.

PHYSICAL
EDUCATION

SCIENCE

SOCIAL STUDIES

OPTIONAL SUBJECTS

What are the benefits of an active lifestyle? Your child will take part in various activities that will help them to lead a healthy, active lifestyle. They will grow to appreciate the importance of physical activity, while discovering essential life skills, such as cooperation, leadership, fair play and teamwork.

Charged up about electricity? In Grade 5 Science, students learn about electricity and magnetism to build simple electrical devices. Chemistry activities like making crystals introduce them to chemical reactions. Students also interpret and measure weather and study wetland ecosystems.

What is Canada like? I want to know our stories! Canada is a vast country with a varied geography and a diverse population. Your Grade 5 child will discover Canada's regions, the stories and ways of life of Canada's peoples, and how various events have contributed to Canadians' identity.

DRAMA
FIRST NATIONS LANGUAGES
FRENCH AS A SECOND LANGUAGE
INTERNATIONAL LANGUAGES

ASSESSMENT

Your child's learning is assessed using a variety of tools and strategies within the classroom. Ask your child's teacher what methods they are using. The different assessment methods tell you and your child's teacher about your child's strengths, the areas in which they might grow and how well your child is doing throughout their courses. Your child's teacher can then change or refine their teaching plans to ensure that learning activities better meet the needs of your child. At the end of each course, your child is assessed and their achievement is reported so that you know if they have achieved the expected learning outcomes for their grade.

You play an integral role in your child's education by providing the encouragement and support he or she needs to succeed.

RESOURCES

A variety of digital and print resources from many different sources help students learn. Alberta Education reviews and authorizes many student and teacher resources that support learning and teaching in the classroom. Additionally, teachers may select, and bring into the classroom, numerous other innovative and creative resources to create rich learning experiences for your child. Visit LearnAlberta.ca (<http://www.learnalberta.ca/>), the Authorized Resources Database (<http://education.alberta.ca/apps/lrdb/>) or the Learning Resources Centre (<http://www.lrc.education.gov.ab.ca/pro/default.html>) to learn more about the resources your child may encounter.
